

# CS2040C PE Instructions

12 April 2024

# Please make sure your laptop:

- Can build with googletest completely offline
  - o See instructions in Coursemology Forum. Basically, download the googletest-03....zip file, unpack to the correct location, turn off wifi, and build.
- Can record screen to a compact file.
  - o Recommend VLC or ffmpeg, 1 fps at full resolution
- Examplify installed and ready to run
- Remove/disable all unauthorized materials the day of the exam
  - o E.g. Code generation tools like GitHub CoPilot, etc.

## **Download the Skeleton Code**

- Go to Coursemology -> Materials -> AY202324 S2 PE
- Download 2324S2\_PE.zip
- MAKE SURE YOU DOWNLOAD THIS FILE BEFORE STARTING EXAMPLIFY!

CS2040C Data Structure and Algorithms (AY2023/24 Sem 2) / Materials / AY202324 S2 PE

# **Allowed / Required Materials**

- Build environment that supports CMake, C++17, and googletest without using the internet.
- 1 A4 size cheat sheet and 1 blank piece of paper.
- Lectures and/or lab slides, and <u>your own</u> lecture notes and past assignments.
- Local build system documentation

# **Disallowed Materials**

- Internet access
- Any electronic device other than your laptop (e.g. phones, watches, calculators, etc)
- Anyone else's notes, textbooks, internet resources etc.
- Any method of communication with other students.
- Generative coding tools of any kind.
  - Single-word code completion (e.g. IntelliSense) ok
  - CoPilot, TabbyCat etc are <u>strictly forbidden</u>

You are responsible for ensuring that no disallowed resources are available / accessed during the exam.

## **PE Process**

- 1. Set up
  - a. Download required files
  - b. Start recording

2. Examplify

- a. Download exam PDF via Examplify
- b. No internet connection
- c. Code using your own build env
- d. Submit code to Examplify

3. Post Exam

- a. Submit code to Coursemology
- b. Code must match
   Examplify <u>exactly</u>
- c. Submit screen recording to Canvas

# **Before Starting PE**

- 1. Download PE Zip File from Coursemology
- 2. Start screen recording <u>before</u> starting Examplify

Friday, April 12 2024, 14:39 Kareem Shehata **Download googletest** 

```
Download this file
```

```
mockpe_part1 > mockpe_part1 > M CMakeLists.txt
      cmake_minimum_required(VERSION 3.0.0)
      project("CS2040C AY23/24 SEM2 MOCK PE PART 1")
      # GoogleTest requires at least C++14
      set(CMAKE CXX STANDARD 17)
      set(CMAKE_CXX_STANDARD_REQUIRED ON)
      include(FetchContent)
      FetchContent Declare(
        googletest
        # URL https://github.com/google/googletest/archive/03597a01ee50ed33e9dfd640b249b4be3799d395.zip
        # download the zip from the URL above, extract the folder and place in this directory
 13
        SOURCE_DIR ../googletest-03597a01ee50ed33e9dfd640b249b4be3799d395
        FETCHCONTENT FULLY DISCONNECTED
      # For Windows: Prevent overriding the parent project's compiler/linker settings
      set(gtest_force_shared_crt ON CACHE BOOL "" FORCE)
 17
                                                           Put contents here
      FetchContent_MakeAvailable(googletest)
```

## **Common Build Problems**

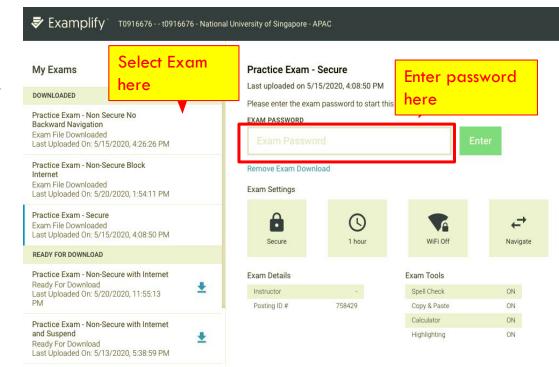

- 1. Can't find googletest
  - a. Make sure the "googletest-03..." folder is in your project folder
  - b. If using MSVC directly (i.e. not VSCode) change:
    - i. SOURCE\_DIR ../googletest-03... to SOURCE DIR ../../googletest-03...
- 2. Can't find CMakeLists
  - a. Using VS Code, make sure you open the folder that contains your CMakeLists.txt file <u>not</u> the parent folder.
- 3. Sometimes renaming/deleting the build folder and restarting works

# **Starting Exam**

- Log in to Examplify with your NUSNET credentials.
- 2. Check and ensure your Student ID is correct.
- Select the exam file:

#### CS2040C-Mock-PE-2024-Mar

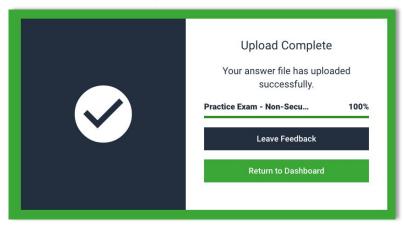

- 4. Enter the Exam Password (given by TA)
- 5. Read the exam notice, then click Continue.
- 6. On the exam start screen:
  - a. Check "I am authorized to start my exam"
  - Click on the Start Exam button to start the exam.

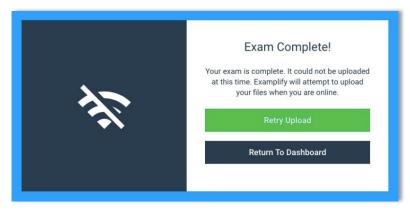

## **Submit Exam**

- Do not stop screen recording until AFTER submission!
- 2. Click on the Exam Controls (top right-side menu)
  - a. Choose Submit Exam.
- 3. Check "I confirm that I have completed my exam";
  - a. Click **Submit Exam** once you are sure you wish to submit your exam.
  - b. Otherwise click Go Back to go back and review your answers.
- 4. Examplify will now upload your answers.
- 5. Make you see the Green "Upload Complete" screen
- 6. If you see a blue screen, check your Wi-Fi connection and click the "Retry Upload" button.
- 7. Keep the Green "Upload Complete" screen open on your laptop and remain seated quietly.
- 8. You are not allowed to communicate with any other students until dismissed.

#### **Green Screen, successful submission**

#### Blue Screen, check Wi-Fi connection

## **Post-Exam**

- 1. Stop screen recording after you get to the green screen in Examplify.
- 2. Submit your code to Coursemology.
  - a. (For Mock PE you will not be able to see your answers, in actual PE you will get access to this)

#### Code submitting to Coursemology must match Examplify exactly!

- Upload screen recording to Panopto.
  - a. Separate instructions will be sent for uploading,
  - b. Make sure to keep your original recording until after the upload is successful.
  - c. Make sure the file size is not too big. You may need to re-encode the file to reduce size. See instructions for ffmpeg.

Failure to upload a screen recording or code mismatches between Examplify and Coursemology will be investigated as Academic Integrity
